

## Review CBS Sports

### CBS Interactive, Inc.

With the free CBS Sports application you will be informed of everything that happens in sport, showing in real time the results of the matches or events that are taking place anywhere in the world. Select your favorite competition and / or team and receive notifications of all the updates that occur

If there is something that moves the world, it is sport. No matter what your favorite exercise is, or the team you love, you will always find other people with the same passion as you. Therefore, for fans of sports competitions it is very important to be up to date with everything that happens with the championships and teams that follow. Today this is much easier to achieve with mobile applications that allow us to be informed in real time of everything that happens around and if it also comes from the hand of one of the most prestigious sports networks, the better. This is what happens with the **CBS Sports application**.

The sports division of the CBS News channel has managed to dazzle millions of people around the world. The secret of its success can be found in its programming, which includes the broadcast of the main competitions of the most important sports in the country, such as the NBA, the main national baseball leagues, the most important tennis tournaments or the Games. Olympics, which are the most important sporting event in the world.

Now that it is unrivaled as a sports network, it is their turn to dominate the world of mobile devices with their own free application. You find it available for both **Android** and **iOS** operating systems and with it you will dominate all the leagues that interest you, [download CBS Sports for free](#).

With **CBS Sports** you will have all the results in real time, the instant update of all the rankings, the statistics of the matches and all the data you need in one place and without having to be aware of your mobile device. By configuring the alarms that you want to reach you, each time a change occurs it will arrive on your mobile in the form of a notification, so that all you have to do is enter and see what has happened. You also have the option of creating your own list of favorite sports or teams, so that every time you enter the application you do not have to search for them manually and all their updates appear automatically.

It is considered the most reliable source of the main news in the world of sports, so you will always be informed of the latest news that occurs. In addition, through this free app you will be able to see all their special programs and the main sporting events that are broadcasting on their official channels, 24 hours a day, 7 days a week. With it you will have direct access and seats in the front row of the most important sports.

Not only can you obtain information on **live sports** matches that are happening, you will also have at your fingertips all the important data of the teams that make up a competition and historical figures, in this way you will know first-hand how it arrives at a meeting and the previous results of that same duel. You will also find a section with all the highlighted information, with coverage before and after the event ends with the best moments that the confrontation has left us.

Although there are many applications that can offer you the results of the matches that are taking place anywhere in the world, one of the **advantages of CBS Sports** is that it uses all the resources it has to offer you the fastest scoring and statistics updates. That is why it is unrivaled, because none of the others have the technology or reach of this sports network.

But not only live sports live its users, it has its own integrated game. From this app you can access this social game

called Fantasy in which you will have to create your own team and with the scores that are given to the real players for how well they have played in the games, you will get some points that will be added and It will make you go up the ranking of players until you reach the top and you can win this virtual league. It has a database so wide that it not only includes top-level professional sports, you can also keep up to date with all the results and classifications of secondary schools, you can even become the official scorer and update these data yourself .

Pros	Cons
<ul style="list-style-type: none"><li>- Very detailed information.</li><li>- It also has data from university competitions.</li><li>- Live broadcasts.</li><li>- Real time update.</li></ul>	<ul style="list-style-type: none"><li>- You have to do a lot of clicks to get to what you want to see.</li><li>- You can get lost in all the information you have.</li><li>- The information of the lower categories is not so precise.</li><li>- Popular sports are given more importance.</li></ul>
