

## Review #DRIVE

### Pixel Perfect Dude

One of the most original deliveries in terms of graphics available. #DRIVE is a free download game by Pixel Perfect Dude available for mobile phones. Drive non-stop in beautifully crafted settings and unlock more than 60 types of vehicles for this adventure on wheels

One of the themes most taken to the movies, television shows and video games has been driving. The dream of the liberation of the system represented in a long, straight and endless route has been repeated in different success stories. The 1970s and 1980s exploited this in a particular way, but it has persisted over the years. A large number of mobile **games and applications** have been developed around vehicles, races and or chases.

**Playing free games** on your mobile is possible and today we will talk about one of the most downloaded apps in recent times and the one that has grown the most thanks to its outstanding and interesting proposal. A delivery that will allow you to do something as easy, entertaining and addictive as driving. Nothing else.

**#DRIVE** is a game made by Pixel Perfect Dude. The company has several offers in virtual stores for **Android and iOS**. Among its products is: Extreme Beach Volley, Ski Jump VR and Ski Jump. All of them, like the driving title, are free apps that offer integrated purchases within the program.

**Playing #DRIVE** will invite you to experience a liberating sensation. It is an endless proposal in which you have to travel the most beautiful routes in the desert. The driving mechanics are simple and easy to learn. As you progress on your way, you must collect bonuses and avoid obstacles or being caught by the police.

The audiovisual sections are one of the great and outstanding **advantages of #DRIVE**. The game made by Pixel Perfect Dude is inspired by the art of the 70s and its visual finishes are colorful and beautiful. The same goes for the soundtrack. Your adventures will take place on different maps, located in various cities around the world such as: "Snowplough" in the UK, "Holzberg" in Germany, "Tofuyama" in Japan, "Vinh-Vang" in South Asia, "La Mirabelle" in France and "Dry Crumbs" in the United States, each with a landscape characteristic of the region in which they are developed.

Like any car delivery, the variety of vehicles you have is very important to enjoy your endless adventures. In **#DRIVE** you will have the chance to acquire a wide variety of cars. The number of original designs amounts to more than 60 and you can apply improvements to make your games better. Like the scenery, the car graphics are very good. There are traditional designs, both sports, family or industrial.

Surely downloading **#DRIVE for free** will remind you of the classic arcade proposals. Its objective is simple, easy to learn and you will spend hours in search of breaking your points record in order to access more and better cars.

If you need advice to be the best in #DRIVE we can tell you that what you can do is play, play and play. Practice is what makes you progress in your progress in video games and especially in those of this style. Recognize well each map, obstacles and you will be able to control well each movement you make before facing them. Don't just think about what will come first but consider what may come next. Each map in the Pixel Perfect Dude proposal has a different level of difficulty so start with the simplest and then move on to those that are somewhat more complex. #DRIVE sits as a great delivery for its simplicity. In moments where many titles are lowered in controls and complicated stories, here you will have the opposite. Guaranteed fun, in an excellent setting with a clear, concise and easy-to-achieve objective.

It doesn't matter if you are a novice or an experienced player. Everyone can have a very good experience by downloading #DRIVE for free.

If you want to remember the times of the products to have fun without complications, easy to learn and set in the last great era of cinema and television, do not miss the opportunity to install the Pixel Perfect Dude proposal. Go through the best scenarios, with incredible cars, enjoy original graphics and a good soundtrack in this great application so you can spend hours of fun.
