

Review ROBLOX

Roblox Corporation

ROBLOX is one of the fashion games, where the limits are set by your imagination to build everything you have dreamed of. It stands out for being an online social game whereby its players can create and publish their own virtual worlds using construction tools

ROBLOX is one of those many games that reach both the App Store and Google Play with the idea of ??becoming great successes, bringing together millions of players and being a real money-making machine. Few succeed, but without a doubt, the game that we present today has more than succeeded. And it is that only in the number of players, they have reached 48 million active users, something available to very few.

It is treated as the platform of the imagination by its developers. By **downloading ROBLOX**, we can build everything we can imagine. From a large mansion, through a Formula 1 circuit and to an amusement park. Everyone can build and manage it as they want, alone or in the company of their friends.

Any construction created by a user can be enjoyed not only by the user himself, but by anyone who wants to take a walk. Also one of the great advantages of ROBLOX is that we can try any of those constructions, so that each world created by a user will be an adventure for others. For example, if you jump to build a giant skyscraper, any user who visits you may have the opportunity to enjoy pleasant views from above. If you go for a car racing circuit, you may not have enough time to get behind the wheel of a powerful car to go around at full speed.

You can **Download Roblox for free** by getting a stock account, then if you want to buy a Premium account and don't have it yet, let's say you decide to buy a \$ 9.99 premium. So it means that you pay \$ 9.99 per month, so every month you have to pay \$ 9.99. Let's say that today March 28 Premium purchases will last until April 28. This is how Premium works: pay once the \$ 9.99 for a month of Premium and then it will be renewed for the next month, and so on. This means you will receive 1000 robux for a month - you will get this amount once a month.

This will last forever until you cancel it. If you no longer want Premium and definitely want to cancel and do not want it to automatically renew next month, you can go to your Settings, then you can click Billing and you will see your membership status. Therefore, you can click Cancel renewal, which means that it will not renew it next month. But if you later decide to buy Premium again (if you cancel it), you can upgrade again now and as soon as your Premium expires, you can buy it again. Therefore, the premium lasts for a month, you have to pay it monthly, so every month you have to pay the premium, you get your Roblox only once a month.

Since the new level system came out in the last Jail break update of the **Roblox game**, it has generated a lot of controversy and people have complained that leveling up is sometimes very complicated, so today I am going to teach you several tricks so that leveling up is at least much more comfortable for you.

Raising levels in Jailbreak as a criminal is more complicated, it is true that as a police officer you are already leveling up and this has made many people want to be a police officer now and they are also camping to be able to arrest everything they can and thus level up faster.

What happens as a criminal is not the same because the only thing you can do to level up is to steal and sometimes the thefts are not so easy for the simple reason that I tell you that there are many police officers on the server and there are many police officers. the ones that are running around to arrest you, this makes it much more difficult to steal and obviously much more difficult to level up.

I will teach you a trick to make your life easier as for the criminals that you can steal in a quiet way without being disturbed by the police if they are playing on public servants and to steal much faster. This way they will level up in a safer way.

If you can put on the Antro body, which is free, I recommend it to be able to do the trick of the museum, I want to explain to you how to steal the museum safely without the police being camped and at least make sure that when you are stealing the museum you are going to get and you will gain experience. We should take a Donuts and then steal whatever it was but with the donuts in hand. While we are stealing, the image appears that it is stealing what you have taken and a symbol that it is unloading once it finishes stealing you must give it in the same moment to eat the donuts!

What is going to happen? The bag does not appear so we will be able to take out our weapons and the bag will not be seen, although it does not mean that we do not have the money. With this trick we are going to choose the shotgun that we have and in the window we put ourselves in first person and look up to leave the museum and we left. Since the police will be in front of the museum in the front, you can run away without being caught.

Pros	Cons
- 'It is a really simple game that everyone can enjoy without encountering too many complications' - 'It is completely free to download' - 'It has no end, no limit, since imagination will be our only limit' - "You can play with your friends because it has a great community "	- 'Integrated purchases are a great annoyance, especially if you are going to let ROBLOX play on your mobile device or tablet' - 'The lack of specific objectives can make you fall into boredom over time' - 'Sometimes and if you don't have a last generation smartphone or tablet, you can notice something slow ' - "Some levels are super difficult to pass"
